

When your
IMPLANT is the
ENABLING
TECHNOLOGY

With multiple insertion and fixation options you can...

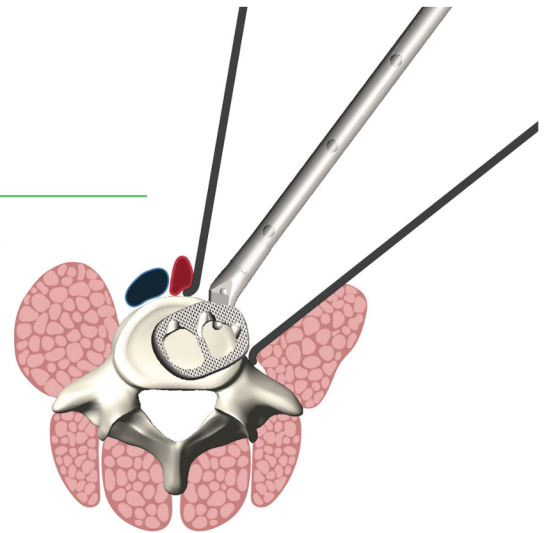

Enjoy the View

Easily place screws in the direction that matches your surgical viewpoint.

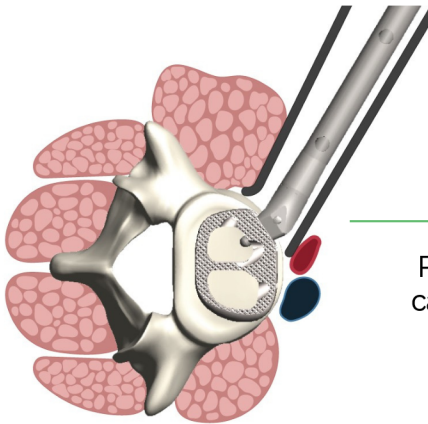

Navigate Obstacles

Select an oblique surgical pathway to navigate anatomic obstacles and minimize vessel retraction.

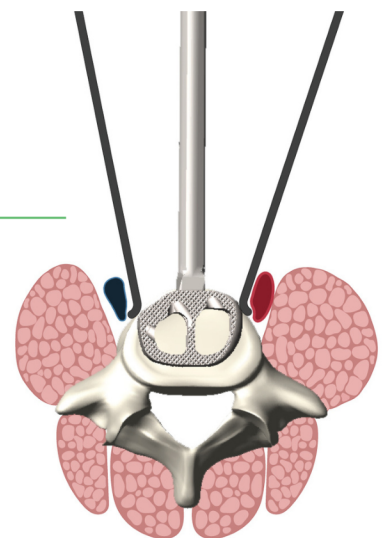

Access with Less Stress

Place and affix an ALIF footprint-sized cage without an orthogonal maneuver.

Simplify Complexity

Perform multi-level cases with an anterior approach at L5-S1 and with a midline, ATP or oblique approach at upper lumbar levels.

NovApproach Spine is passionate about developing implants and surgical approaches that are designed to make spine surgery simpler and more efficient.
